

Samsung SL-45A/2200 — Hammer of Forge

Heavy CNC lathe purpose-built for forged blanks, rough shafts, drive mandrels, and structural stock. 14" OD × 96" L max turning.

Hammer of Forge · heavy-duty CNC lathe for rough stock

Hammer of Forge is the machine that takes ugly starting material and makes it round, straight, and to size. Forged blanks with scale and skin, rough saw-cut billets, oversized bar stock — this machine has the rigidity and horsepower to get through the roughing pass without chatter and without walking the part. Most of what our other lathes finish, this one starts.

Pick your industry

Samsung SL-45A for Oil & Gas

Full spec sheet, typical oil & gas parts, alloys, tolerance expectations, documentation approach.

Samsung SL-45A for Aerospace

Full spec sheet, typical aerospace parts, alloys, tolerance expectations, documentation approach.

Samsung SL-45A for Military & Defense

Full spec sheet, typical defense parts, alloys,

Samsung SL-45A for Industrial & General Manufacturing
