

Hwacheon Hi-Tech 400 — Torque & Tumble

Mid-size CNC lathe with live tooling — turn, mill, drill, and thread in one setup.
12.5" OD × 49" L max turning.

Torque & Tumble · mid-size CNC lathe with live tooling

The Hi-Tech 400 is Hwacheon's heavy-duty box-way turning platform — the class of lathe you reach for when you're taking real chips off tough alloys. The 15" hydraulic chuck and 5.3" spindle bore let it accept the kind of stock most job-shop lathes won't clear, and the box-way construction keeps roughing cuts stable in Inconel and Duplex. Torque & Tumble handles wellhead spools, downhole tool bodies, valve stems, and any oilfield turning where rigidity and bore size matter more than cycle time.

Pick your industry

Hwacheon Hi-Tech 400 for Oil & Gas

Full spec sheet, typical oil & gas parts, alloys, tolerance expectations, documentation approach.

Hwacheon Hi-Tech 400 for Aerospace

Full spec sheet, typical aerospace parts, alloys, tolerance expectations, documentation approach.

Hwacheon Hi-Tech 400 for Military & Defense

Full spec sheet, typical defense parts, alloys, tolerance expectations, documentation approach.

Hwacheon Hi-Tech 400 for Industrial & General Manufacturing

Full spec sheet, typical industrial parts, alloys, tolerance expectations, documentation approach.
