

Hwacheon Hi-Eco 35 (two cells) — Ironwood Revival / Quickdraw Slim

Mid-size CNC lathe pair for shafts, gear blanks, flanges, and threaded components with consistency and clean finishes. 12.5" OD × 42" L max turning (each cell).

HWACHEON

Ironwood Revival / Quickdraw Slim · mid-size precision CNC turning center

The Hi-Eco 35 pair is the mid-size backbone of the shop's turning capacity. Two identical cells means when one is loaded with a long-cycle Inconel job, the other keeps repair and small-batch work moving. Shafts, gear blanks, flanges, threaded components — the class of parts that make up the bulk of oilfield turning volume runs here.
